

CLARIFICATION

to the

CONTRACT NOTICE

Publication reference: CB005.2.11.035-4

Subject: “Delivery of specialized vehicles”

Location: Sozopol, Bulgaria

Question 1: As per Annex ii + iii: Technical specifications+technical offer document:

Supply of Specialized car – type I – 1 item

Minimum requirements for the delivered vehicle (the provided vehicle should be the same or equivalent)

- Point 1.6. Other requirements:
- Dimensions & weights of the deck – minimum L x W x H: 926 mm x 636 mm x 845 mm

Please clarify how exactly it should be measured the following parameter: 845 mm? Is this the height from the ground to the deck or it is the height of the side walls of the deck? From where to where it should be measured? Also specify if these are internal or external dimensions?

Answer: The given dimensions are the minimum internal dimensions of the deck. Please note that corrigendum to the contract notice has been published and the parameter 845 mm should be read as 445 mm, which is the minimum height of the side walls of the deck.
